

Images of our 2020 June journey to The Hedges on Blue Mtn. Lake, NY

Since the summer of 1993, we have visited the Hedges annually on various dates and seasons. This trip to the Hedges on Blue Mountain Lake happened in June. The pandemic had resulted in the cancellation of our end of May arrival with the family and we were offered a later time but just for ourselves this year.

The weather was excellent as were the accommodations and care they took to keep the grounds sanitary and safe.
