

Images of our 2022 June family journey to The Hedges on Blue Mtn. Lake, NY

Having first visited The Hedges in the summer of 1993, we continued the tradition again this year. Dan wasn't able to join us, but the rest of the four families gathered and spent many days enjoying The Hedges compound and the many area outdoors adventures. With ages ranging from 3 to 81 years, we always found opportunities to enjoy the Adirondack atmosphere. The living accommodations and staff support for all of us were excellent and the daily morning and evening meals offered splendid variety to satisfy each of us.

The weather was excellent offering a tad of variety ala the Adirondacks. Hey, we had a blast again this year!!! And a smiling thank you to the family members who shared their photos.
